LONG LASTING

An ISO 9001-2015 Certified Company

BULL AGRO[®]

son of the soil

QUALITY TILLAGE NEEDS QUALITY BLADES.

In soil tillage, the quality, lifespan, and affordability of the blades are playing a major role. In fact, that defines the quality of the seed bed, long working hours, and less fuel consumption thus more profitability. That's where BULL AGRO comes in.

Bull Agro. The largest Rotary HOE blades & Power tiller blades manufacturer in India established in 1998 is part of the well established 55-year-old SANDFITS group with over 65 million EURO annual turnover including 15 million Euro in its Agriculture Implements Division.

Our never-ending quest for agricultural mechanization resulted in manufacturing the first Rotary HOE Blade in India. We earned a reputation for our dedication to quality and constant product innovation. We have developed and manufactured various types of Rotary HOE Blades & Power tiller Blades for more than 25 years. Over the years we emerged as **NO.1 Rotary HOE Blades Brand In INDIA.**

We are **ISO 9001: 2015 TUV** certified company and by establishing an ISO system, we are able to manage our production and supply chain efficiently and provide consumers with quality products with prompt delivery.

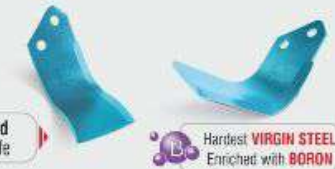

We have 600 direct Distributor/ Dealer networks across the country and we are reaching out to more than 200000 farmers every year. We are the largest OEM supplier for major reputed companies in India and a few of our prestigious clientele consists TAFE – Massey Ferguson, Mahindra & Mahindra, Honda India Power Products, VST Mitsubishi Tractor & Tillers, etc.

BULL POWER^{HD} HEAVY DUTY

**TOUGHEST ROTARY TILLER
BLADES WITH IMPROVED FEATURES

THE HARDEST SOIL CONDITIONS!**

- ▶ HRC 48 ~ 50.
- ▶ Boron Enriched Hardest Virgin Steel.
- ▶ 30% Extra Life compared to any other blades.
- ▶ Suitable for Hard Soil application.
- ▶ Fine tempered super sharp (0.5mm) edge .

Twisted 'C' Bend
For Extended Life

Hardest VIRGIN STEEL
Enriched with BORON

BULL POWER

**POWERFUL ROTARY HOE
BLADES WITH HIGHEST WEAR
RESISTANT QUALITY MADE FOR
THE TOUGHEST SOIL!**

- ▶ HRC 48 ~ 50.
- ▶ Boron Enriched Hardest Virgin Steel.
- ▶ 15-20% Extra Life compared to any other blades.
- ▶ Suitable for Hard Soil application.

BULL JUMBO

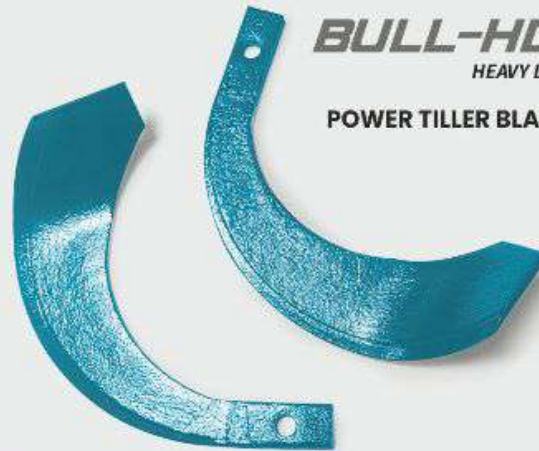

SPECIALLY MADE FOR BANANA MULCHING!

- ▶ HRC 46- 48.
- ▶ 28/30 MCB5 Boron Steel material
- ▶ Hardness ensures flexibility and the ability to absorb impacts without breaking.
- ▶ 8mm thickness

BULL-HD

HEAVY DUTY

POWER TILLER BLADES

- ▶ HRC 46- 48.
- ▶ 28/30 MCB5 Boron Steel material
- ▶ Hardness ensures flexibility and the ability to absorb impacts without breaking.

Reusable NUTS & BOLTS
reduces your expenses

Single spanner for blade fitment
saves lot of time. Very Easy to tight.

2in1 EASY TO FIT ROTARY TILLER BLADES!

- ▶ By simply flipping the blades and interchanging the Nuts & Bolts.
- ▶ It suits any type rotary tiller with different hole widths.
- ▶ Boron Enriched Hardest Virgin Steel.

BULL MM-12

Available both L & C Types

- ▶ HRC 46- 48.
- ▶ 28/30 MCB5 Boron Steel material
- ▶ Hardness ensures flexibility and the ability to absorb impacts without breaking.

Crafted from highly
wear resistant

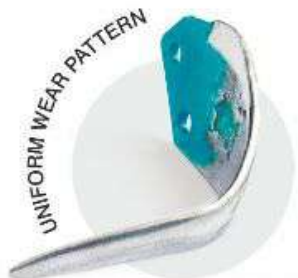

**28~30MCB5
STEEL**

WORLD CLASS INFRASTRUCTURE

- ▶ The state-of-the-art manufacturing facility comprises four production lines with total area of 75000 Sq. Mtr including 11000 Sq. Mtr of Built up area.
- ▶ Equipped with conveyerised tempering furnace made in Italy.
- ▶ Conveyerised automatic shot blasting machine ("DISA" make).
- ▶ In house mould design and development centre with latest facilities .
- ▶ Well dedicated workforce (more than 250 direct employees).
- ▶ Oracle Based ERP System.
- ▶ The entire manufacturing process is controlled by PLC operated and sensors to ensure process quality.
- ▶ Various quality tests are carried out by employing latest equipments like Spectra to test chemical Composition, Hardness tester, And microscope etc.,

COMMITTED TO QUALITY

- ▶ In house product design team to make any kind of Rotary Hoe blades as per global market requirements.
- ▶ More than 8 million blades production capacity per annum.
- ▶ Exporting rotary tiller blades to South Korea, Bangladesh, Thailand, Turkey, Myanmar, Sri Lanka, Australia and many other countries.
- ▶ Procuring virgin steel only from the largest steel plants with the facility of Iron Ore routed and vacuum degassing.
